Worthy to note:

All are subject to change according to this ever changing time we live in.

PURPOSE during these six to eight weeks of orientation and training is for cross cultural experiences in the great country of Canada in addition to learning the home base operations in Canada.

Experiences may vary and will stray outside a "classroom" setting. Much is to be learned about the farming/agricultural area in the Prairies, the urban as well as the rural.

Therefore, "field trips" may be part of the experience to such places as Spruce Woods Provincial Park, Riding Mountain National Park, possibly a Hutterite colony and the manufacturing of trusses etc.

"God is in the House" "house church gatherings" at affiliated locations in other towns or cities in Manitoba with participation from both Canadian and other RLM International attendees, whether in person or virtually.

**NOTE:**
