

Philippians 1:27 (NIV) What ever happens CONDUCT yourselves in a manner worthy of the Gospel of Christ

The Key here is What Ever Happens conduct yourselves in the Character of Christ. Another way to put it what would Jesus do in this situation to Glorify His Father. What choice of words or action was he going to make that will speak and demonstrate truth of who He is as ABBAs Son. Well, you are Abbas son through the Blood of His Son so what choice are we going to make to be content and balanced who we are to Glorify Jesus and our Father ,Abba.

Holy Spirit Call yes ask the Holy Spirit to help in those choices and actions and He is delighted to confirm your action, word, deed, or thought.

Not complicated just committed to Making Right Choices as a Lifestyle of Worship!

Here is a Formula that the Lord gave me that I have taught in Business or Church Leadership for over 30 years.

IR=CTC..Excellence verses Success

Complicated No!

I is the first letter that starts the formula Integrity. Integrity is not the only thing it is everything. Integrity must be the foundation of everything said, written and demonstrated. Compromise is not an OPTION. Your needs wants and desires are not first. You must have a lifestyle of I or integrity so your shadow is you!

R is the second letter of the formula Relationship. Relationship before your purpose or need brings contentment and balance in your true nature. Relationship restores acceptance in everything we do in family, work church, friends, enemies.I can go on We need to Care about the second party first before we care about our own need.

= means = You can not proceed to the next step if the first part of the formula is not in order.

C Care in Action and in Word an in Deed.

T Trust in Action and in Word and in Deed.

C Commitment in Action and Word and in Deed.

All demonstrating a Life Covenant that will not be BROKEN by me or in your case you if you take up the formula IR=CTC in Jesus Name..

Excellence in Jesus always brings Peace to a Success Driven Life!

Love You,
