

MUSICIAN, MICHAEL CARD

in an interview after a visit to China said; 'Again and again in China I talked to people who had never heard of Christianity, never heard of Jesus, and never heard a single word from the Bible.

Yet through nature and their God given conscience many believed in God. Not only did they believe God existed, they had obtained some understanding of His loving character because he provided food, water and a beautiful world. One old woman said to me, 'I've known Him for years, I just didn't know His name!' Whatever we may think there is intelligent design in this universe. Also, there is the capacity in every human being to accept or reject the Creator. The physical and moral state of the earth today suggest it's time for us to consider what we believe. We can access the Bible, as well as the evidence of God in the creation. For God so loved us he gave us Jesus his son – He still wonderfully changes circumstances and people. Why not ask!
